

- **Stainless Steel Construction**
- **Equipped Standard with Ketan K-200 Applicators (Up to 6.25" Label Width Capacity)**
- **Equipped Standard with "Automatic Label Set" Feature (reduced set up time)**

Stepper Pneumatic In Feed Module For Increased Label Placement Accuracy with Oval or Angled Surfaces

Elliptical Aligner In Feed Module

- **Equipped Standard with Dual Wheel In Feed Spacing Mechanism**
- **Excellent Label Placement Accuracy**
- **Apply Labels to the Front & Back Sides of Flat or Oval Products**

Standard Features & Specifications

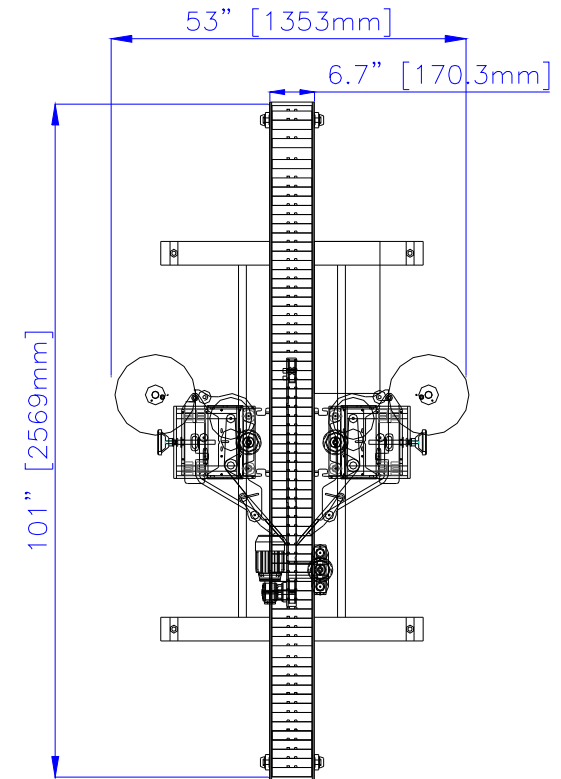

- Equipped standard with the “Automatic Label Set” feature for reduced set up time
- Base conveyor, top hold down drive & in feed module are self synchronizing
- Equipped standard with Ketan K 200 label applicators
- Capable of handling products up to 6.5” wide
- Maximum conveyor speed of 70 ft/min
- Increased speed can be obtained– ask Ketan representative for details
- Min label width: 3/8” Max label width: 6.25”
- Equipped standard with X-Y & tilt adjusting label applicator base
- Programmable applicator controllers with LCD display & memory allocation
- Ink Jet or Hot Stamp coder integration- capabilities for printing directly onto label
- Dimensions: please see dimensional drawing
- Completely mobile system or fixed in place
- Equipped standard with adjustable guide rails
- Built in product counters on each controller
- Stainless construction
- Changes or custom designs to accommodate various types of applications can be done– Ask a Ketan representative for details

Options

- Screw drives - Infeed
- K200-S high speed applicators with 16” supply reel
- Elliptical aligner –Infeed
- Saloon door tamp module– label front and both side panels
- Three stage light beacon
- Clear label sensors
- Foam rollers for secondary wipe
- Blow box modules
- Tamp modules

Excellent label placement accuracy Apply labels to various types of flat or oval products
